## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Harris, Jr., Gordon K. on 8/11/09.

The application has been amended as follows:

#### IN THE CLAIMS

**Pease cancel claims 5 and 11.**

**In claim 1**, line 9, after "said knob is rotated at said rest level", please insert -- wherein at least one of said vehicle functions is an on/off function, and wherein said knob further comprises a switch for controlling said on/off function and said switch includes an indicator reflective of the state of said on/off function.

**In claim 7**, line 9, after "said knob is rotated at said rest level", please insert -- wherein at least one of said vehicle functions is an on/off function, and wherein said knob further comprises a switch for controlling said on/off function and said switch includes an indicator reflective of the state of said on/off function.

Art Unit: 2629

**Claim 13.** (Currently Amended) In a vehicle having a plurality of functions for controlling by a user, a method for selecting and controlling the functions, the method comprising: selecting one of said functions by rotating a knob at a first level about an axis of rotation; translating said knob along said axis of rotation to a second level; controlling said one of said functions by rotating said knob at said second level; ~~and~~ indicating said one of said ~~vehicle~~ functions using an annunciator when said one of said ~~vehicle~~ functions is selected by rotating said knob at said first level; wherein at least one of said vehicle functions is an on/off function, and wherein said knob further comprises a switch for controlling said on/off function and said switch includes an indicator reflective of the state of said on/off function.”

*Allowable Subject Matter*

**2. Claims 1-4, 6-10 and 12-13 are allowed.**

The following is an examiner's statement of reasons for allowance: Claims 1-4, 6-10 and 12-13 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. **In claim 1**, “a plurality of annunciators, wherein one of said annunciators indicates said selected one of said vehicle functions when said knob is rotated at said rest level, wherein at least one of said vehicle functions is an on/off function, and wherein said knob further comprises a switch for controlling said on/off function and said switch includes an indicator reflective of the state of said on/off function”. **In claim 7**, “a plurality of annunciators, wherein one of said annunciators indicates said selected one of said vehicle functions when said knob is rotated at said first level, wherein at least one of said vehicle functions is an on/off function, and wherein said knob further comprises a switch for controlling said on/off function and said switch

Art Unit: 2629

includes an indicator reflective of the state of said on/off function". In claim 13, "indicating said functions using an annunciator when said one of said functions is selected by rotating said knob at said first level; wherein at least one of said vehicle functions is an on/off function, and wherein said knob further comprises a switch for controlling said on/off function and said switch includes an indicator reflective of the state of said on/off function". The closest prior art Ishiguro (6,176,589 B1) teaches a knob, a predetermined led to corresponding to a rotational positing of the knob for on/off and also includes a predetermined indicator lens to can be illuminated, however, singularly or in combination with other prior art, fail to anticipate or render the above underlined limitations obvious.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
